EXECUTIVE SUMMARY

An enthusiastic and solution driven civil engineering graduate with substantial knowledge in HTML, CSS and JavaScript. I'm a web developer, graphic designer with the passion for creating innovative web for better user interfaces and intuitive user experience. With over one year(s) of experience in web2 technologies, i have a unique skill-set that allows me develop webs that are functional, usable and visually appealing.

I have actively engaged in diverse tech works which has further enhanced my capacity in critical thinking, project management, technical and communication skills. I am flexible and seeking to apply these transferable skills to achieve organizational goals and objectives in a reputable organization.

WORK EXPERIENCE

CIVIL ENGINEERING INTERN

March 2019 – Sept 2019

Nigerian Ports Authority (NPA)

I actively engaged in coordinating interns, planning and supervising projects, as well as ensuring safety protocols in working environments.

Specific tasks performed include:

- Executed routine supervision, ensuring standard engineering practices across all tasks.
- Maintained 100% NPA site safety score, verifying safety protocols and sanitation standards were constantly adhered to.
- Generated BEME (Bill of Engineering Measurements and Evaluation) for civil engineering projects using NPA costing sheet.

JUNIOR SOFTWARE DEVELOPER

October 2022 - Present

EASY WORLD TECHS LIMITED

I am actively engaged in building and developing of softwares using HTML, CSS and JavaScript.

- Collaborated with senior staff to design a company website
- Completed a total of 3 web design projects utilizing HTML, CSS and JavaScript knowledge.
- Completed a total of 5 Templates.
